REASONS FOR ALLOWANCE

1. The following communication is in response to the Amendment filed 11 March 2008.

Status of Claims

2. Claims 1 and 27-49 are currently pending. Claims 1 and 27-49 are allowed.

Response to Arguments

3. Applicant's arguments, filed 11 March 2008, with respect to the rejection of claims 1 and 27-49 under 35 U.S.C. 112, first paragraph have been fully considered and are persuasive.

Therefore the rejection has been withdrawn.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

Prior art, U.S. Patent 6,014,644 to Erickson discloses a system and method for facilitating communication between a plurality of buyers and a plurality of sellers. Erickson teaches that a buyer wishing to purchase goods or services may browse a database to identify suppliers that offer goods or services of interest to the buyer (column 8, lines 28-38). Data is entered by suppliers, including company profiles that contain a supplier ID, the company name, the address of the company, etc. (column 9, lines 4-27). After creating a list of suppliers, the buyer then submits a request for bid to the list of suppliers which can be broadcasted by the service provider

to the suppliers to all the suppliers on the list (column 13, lines 5-20 and column 14, lines 41-55 and column 16, lines 43-55).

The prior art fails to teach A method for facilitating a buyer's selection of a vendor via automated comparison of records and bidding by vendors of customized goods or services via a computer operated system, comprising the steps of:

each buyer using the system generating an electronic communication providing information identifying a plurality of vendors for inclusion in a pool of vendors associated with said buyer to potentially receive a job solicitation, wherein the system stores electronic data sufficient to identify every vendor pool and its association with a corresponding buyer based upon the buyer transmitted vendor pool identification information which occurs prior to analysis of job data pertaining to a job for which bids are sought by or on behalf of the buyer;

automatically comparing via a computer processor vendor records to job data, wherein said comparing includes comparing a plurality of characteristics for said customized good or service with corresponding plural capabilities for vendors from the pool of vendors associated with the buyer;

automatically identifying via a computer processor at least one subset from the buyer's associated pool of vendors as qualified for receiving the solicitation, based on said comparison, and

thereafter transmitting the solicitation to only selected members from the identified subset of the buyer's associated pool of vendors.

5. For these reasons, independent claim 1 is deemed allowable over the prior art. Independent claims 37, 38 and 49 are substantially similar to claim 1 and are allowed under similar reasoning. Claims 27-36 and 39-48 are allowed based on their dependency to either claim 1 or claim 38.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to STEFANOS KARMIS whose telephone number is (571)272-6744. The examiner can normally be reached on M-F: 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Kramer can be reached on (571) 272-6783. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
